BENCHMARK PERFORMANCE BY SECTOR – FEBRUARY

- Energy and Financials were the two best-performing sectors. As vaccine rollouts continued and COVID-19 cases declined, crude prices topped \$60 a barrel for the first time since the start of the pandemic. Banks benefited from rising expectations for increased economic growth and higher interest rates.
- Utilities, Health Care, and Consumer Staples stocks declined, part of a broader shift toward more cyclically oriented businesses.

BENCHMARK PERFORMANCE BY GEOGRAPHY – FEBRUARY

- Canada's heavy concentration of financial and energy companies helped make it one of the best-performing regions.
- Emerging Markets was among the worst-performing. Richly valued Chinese stocks in segments such as autos and Consumer Staples cooled, while the country's internet giants continued to suffer the specter of new anti-monopoly laws.

PERFORMANCE ATTRIBUTION BY SECTOR – FEBRUARY

- Strong stocks in Information Technology were led by **PayPal**. The company reported higher-than-expected sales and earnings, and shared plans to enhance its payment-processing app with new features, including the ability to transact in cryptocurrencies.
- Stock selection was poor in Communications Services. Polish video game developer **CD Projekt** declined after being hacked, delaying bug fixes to its troubled recent launch, *Cyberpunk 2077*.

PERFORMANCE ATTRIBUTION BY GEOGRAPHY – FEBRUARY

- Strong stocks in the US included **John Deere**. The company reported higher margins on improved pricing and a strong order book for its large tractors, providing visibility into profitable growth.
- Stock selection was weak in Japan. Hematology equipment maker **Sysmex** fell after reporting a mixed earnings impact from COVID-19. In Europe, the company's focus on testing facilities helped sales, while in the US, where hospitals are a bigger focus, COVID-19-related priorities and spending cuts hurt.
