

Global Equity Portfolio

Fact Sheet | Institutional Class | Ticker: HLMVX | June 30, 2025

Objective

The Global Equity Portfolio seeks long-term capital appreciation through investments in equity securities of companies based both inside and outside the United States.

Philosophy and Process

We believe a diversified portfolio of high-quality, durable-growth companies purchased at reasonable prices will provide superior investment returns with below-average risk over the long term. Our analysts conduct careful bottom-up research of individual companies and analyze the competitive dynamics of their industries to identify what we believe are the best growth companies and to assess the value of their shares. To qualify for investment, companies must be well-managed, financially strong, and possess clear competitive advantages relative to their peers.

Performance (% Total Return)

as of June 30, 2025

	3 Months	1 Year	3 Years	5 Years	10 Years
Global Equity Portfolio - Institutional Class	9.83	12.06	14.90	8.39	9.48
MSCI All Country World Index	11.53	16.17	17.35	13.65	9.99

Fund performance is shown net of fees. Benchmark performance is shown net of withholding taxes. Returns are annualized for periods greater than one year.

Calendar Year Returns (%)

Performance data quoted represents past performance; past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the Portfolio may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by calling (877) 435-8105 or visiting hardingloevnerfunds.com.

Diversification does not assure a profit or protect against a loss in a declining market.

Endnotes

Pages 1 and 2

(1) Weighted median (2) Trailing five years, annualized (3) Five-year average (4) Weighted harmonic mean. *The Expense Ratios of the Portfolio, both Net (of any fee waivers or expense limitations) and Gross (of any fee waivers or expense limitations) are as set forth above. The Net Expense Ratio is applicable to investors. Harding Loevner LP has contractually agreed to waive a portion of its management fee and/or reimburse the Portfolio's shares for its other operating expenses to the extent the Gross Expense Ratio (excluding acquired fund fees and expenses, among certain other expenses), as a percentage of average daily net assets, exceeds 0.85% through February 28, 2026. Prior to such date, Harding Loevner may not terminate the arrangements without the approval of the Fund's Board of Trustees. See Prospectus for further detail.

Disclosures

Source (Alpha, Beta, R-Squared, Standard Deviation, Sharpe Ratio): Harding Loevner Global Equity Portfolio based on the Portfolio returns, eVestment Alliance LLC, MSCI Inc. Source (Active Share): based on the Harding Loevner Global Equity model. Source (other Characteristics): FactSet (Run Date: July 3, 2025 based on the latest available data in FactSet on this date.), based on the Portfolio's underlying holdings.

Profit Margin: relationship of net income to net sales. Return on Assets: net income for past 12 months divided by total assets. Return on Equity: the net income divided by total common equity outstanding, expressed as a percent. Debt/Equity Ratio: total long-term debt divided by total shareholder's equity. Sales Per Share: the total revenue earned per share for the past 12 months. Earnings Per Share: portion of a company's profit allocated to each outstanding share of common stock. Cash Flow: a measure of the cash generating capability of a company calculated by adding non-cash charges (e.g. depreciation) and interest expense to pretax income. Alpha: a measure of risk-adjusted return. Beta: a measure of the portfolio's sensitivity to the market. R-Squared: a measure of how well a portfolio tracks the market. Active Share: the proportion of holdings by weight that differ from holdings of the benchmark index. Standard Deviation: the statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Sharpe Ratio: the return over the risk free rate per unit of risk. Tracking Error: the standard deviation of the difference between the strategy and index performance. Price/Earnings: the ratio of a firm's closing stock price and its trailing 12 months' earnings/share. Price/Cash Flow: the ratio of a firm's closing stock price and its fiscal year end cash flow/share. Price/Book: the ratio of a firm's closing stock price and its fiscal year end book value/share. Average Weighted Market Capitalization: the product of a security's price and the number of shares outstanding. Median Market Cap: the point at which half of the market value of a portfolio is invested in stocks with a greater market cap, and consequently the other half is invested in stocks with a lower market cap. Turnover: calculated by dividing the lesser of amounts of purchases or sales of portfolio securities for the fiscal year by the monthly average of the value of the portfolio securities owned by the Fund during the fiscal year.

The MSCI All Country World Index is a free float-adjusted market capitalization index that is designed to measure equity market performance in the global developed and emerging markets. The index consists of 47 developed and emerging market countries. The index is net of foreign withholding taxes on dividends. You cannot invest directly in this index.

The Portfolio invests in foreign securities, which will involve greater volatility and political, economic, and currency risks and differences in accounting methods. It also invests in emerging markets, which involve unique risks, such as exposure to economies less diverse and mature than the U.S. or other more established foreign markets. Economic and political instability may cause larger price changes in emerging markets securities than other foreign securities. Investing in participation notes involve the same risks associated with a direct investment in the underlying security, currency or market. The securities of smaller and medium-sized companies have historically exhibited more volatility with a lower degree of liquidity than larger companies.

The Portfolio's investment objectives, risks, charges and expenses must be read and considered carefully before investing. The statutory and summary prospectuses contain this and other important information about the investment company. They may be obtained by calling toll free (877) 435-8105 or visiting hardingloevnerfunds.com.

While the Portfolio is "no load", management and other expenses still apply. Please refer to the Prospectus for further details. The Portfolio is distributed by Quasar Distributors, LLC.
