

INVESTMENT OBJECTIVE

The Global Equity Research Portfolio seeks long-term capital appreciation through investments in equity securities of companies based both inside and outside the United States.

INVESTMENT PHILOSOPHY & PROCESS

We believe a diversified portfolio of high-quality, durable-growth companies purchased at reasonable prices will provide superior investment returns with below-average risk over the long term. Our analysts conduct careful bottom-up research of individual companies and analyze the competitive dynamics of their industries to identify what we believe are the best growth companies and to assess the value of their shares. To qualify for investment, companies must be well-managed, financially strong, and possess clear competitive advantages relative to their peers.

CALENDAR YEAR RETURNS

Performance data quoted represents past performance; past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the Portfolio may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by calling (877)435-8105 or visiting www.hardingloevnerfunds.com. Performance data shown does not reflect the 2.00% redemption fee imposed on shares held 90 days or less; otherwise, total returns would be reduced.

Diversification does not assure a profit or protect against a loss in a declining market.

DISCLOSURES

Source (Characteristics): FactSet (Run Date: October 4, 2019), based on the Portfolio's underlying holdings.

Profit Margin: relationship of gross profits to net sales. Return on Assets: net income for past 12 months divided by total assets. Return on Equity: the net income divided by total common equity outstanding, expressed as a percent. Debt/Equity Ratio: total long-term debt divided by total shareholder's equity. Earnings Per Share: portion of a company's profit allocated to each outstanding share of common stock. Average Weighted Market Capitalization: the product of a security's price & the number of shares outstanding. Median Market Cap: the point at which half of the market value of a portfolio is invested in stocks with a greater market cap, and consequently the other half is invested in stocks with a lower market cap. Price/Earnings: the ratio of a firm's closing stock price & its trailing 12 months' earnings/share. Price/Cash Flow: the ratio of a firm's closing stock price & its fiscal year end cash flow/share. Price/Book: the ratio of a firm's closing stock price & its fiscal year end book value/share. Standard Deviation: the statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution.

The Portfolio invests in foreign securities, which will involve greater volatility and political, economic, and currency risks and differences in accounting methods. It also invests in emerging markets, which involve unique risks, such as exposure to economies less diverse and mature than the U.S. or other more established foreign markets. Economic and political instability may cause larger price changes in emerging markets securities than other foreign securities. Such risks may be magnified for securities in frontier emerging markets. Investing in participation notes involve the same risks associated with a direct investment in the underlying security, currency or market. The securities of smaller and medium-sized companies have historically exhibited more volatility with a lower degree of liquidity than larger companies.

The Portfolio's investment objectives, risks, charges and expenses must be read and considered carefully before investing. The statutory and summary prospectuses contain this and other important information about the investment company. They may be obtained by calling toll free (877) 435-8105, or visiting www.hardingloevnerfunds.com.

While the Portfolio is "no load", management and other expenses still apply. Please refer to the Prospectus for further details. The Portfolio is distributed by Quasar Distributors, LLC.
