30 September 2025 UCITS Fact Sheet

Investment Objective

The investment objective of the active Fund is to achieve long-term capital appreciation through investments in equity securities of small companies based both inside and outside the United States.

Philosophy and Process

Harding Loevner believes a diversified portfolio of high-quality, durable-growth companies purchased at reasonable prices will provide superior investment returns with below-average risk over the long term. Our analysts conduct careful bottom-up research of individual companies and analyze the competitive dynamics of their industries to identify the best growth companies and to assess the value of their shares. To qualify for investment, companies must be well managed, financially strong, and possess clear competitive advantages relative to their peers.
